PERSONAL PROFILE

I'm a technically minded, detail orientated leader with 8 years experience in B2B technology sales and marketing. I've recently taken my passion for technology and made a career shift to front-end web development.

I'm highly proficient in building web applications with HTML and CSS / SCSS and have strong skills in JavaScript and React. I am also skilled in web design tools such as the Adobe Creative Suite, as well as AWS Serverless technologies and CI / CD tools as a AWS Certified Developer and Solutions Architect.

I believe my unique skillset and experience enhances my ability to build and deliver effective, visually appealing, technical products and solutions for end users.

TECHNICAL SKILLS

FRONT-END

- JavaScript
- React
- GraphQL
- HTML / CSS
- SCSS / SASS
- Accessibility / SEO

BACK-END

- Node.js
- AWS Serverless (Lambda, DynamoDB etc.)
